

**Table 1- Plan of Study Components**

1. A description of the recycled water service area that will be studied.
2. The potential sources of recycled water and a summary of the unit processes currently in use at existing treatment facilities.
3. A description of the current disposal/reuse of the wastewater that is proposed to be recycled.
4. A map of the study area showing the sources of recycled water and potential service area(s).
5. Identification of the water and wastewater agencies having jurisdictions over the sources of recycled water and/or the potential service area.
6. A general description of water recycling and potable water supply alternatives that will be evaluated.
7. A description of the opportunities for stakeholder participation, for example, public meeting with the local community members, potential recycled water users, and other agencies that have a stake in the study.
8. A schedule with the start and completion dates of major tasks associated with the facilities planning study.
9. A list of potential problems that may cause delay in the progress of the study and description of the proposed actions to reduce the impact of these potential problems.
10. Identification of the entities that will be conducting the study and description of their roles. This may include a description of proposed subcontracts with consultants or interagency agreements with other agencies, and any force account work.
11. Proposed budget for the study, including estimated costs of specific tasks, sources of financing, and sources of funds for cash flow until grant reimbursement.
